The Administrator has received an application for renewal of water pollution control discharge permit # NEV90053 from the following applicant:

The Nevada Department of Corrections operates Lovelock Correctional Center (LCC), located six miles northeast of Lovelock and approximately one mile east of U.S. I-80 via Coal Canyon Road. Wastewater is treated in a 0.25 million gallons per day treatment pond system consisting of two aerated facultative and two secondary (polishing) ponds. Treated effluent is discharged to groundwaters of the State via infiltration in six rapid infiltration basins. The Division has made the tentative determination to renew the proposed groundwater discharge permit for a period of five (5) years.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, either in person, or by mail, email or fax, to the following address, by 5:00 P.M., April 16, 2007:

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determinations regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

This Document is for Electronic Distribution

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.
